Fighting in order to Establish Human Empowerment in India

TAMOHA registered, as non profit organization under Societies Registration Act on 31.03.2004 in New Delhi with area of operation all over India. The institution is one of the leading humanitarian organizations fighting for the action oriented improvemization of quality standards of our nation by implementing different programs with newer techniques and realistic approach. In the developed world, social work attains its maturity. Our sincere sympathies go to the Jurassic age. These intelligent creations could not cope with cataclysmic change and were thus wiped out from the face of earth, being intelligent, dynamic and bright is not enough. It is the basic concern of the organization that one must also be capable of capping with challenges.

TAMOHA's MISSION is to prepare the society so as to face the new changes in the world by the efforts of professionals who have gained vast knowledge in social work and who can face challenges. That had arisen because of globalization and super industrialization.

Livelihood Enhancement

a) Education

Recognize education as the weapon to fight against social issues, injustice and inequality. Provide inspiration for future studies. Aim at universalization of elementary education and total literacy. Conduct the programs with social support and self fund raising. Running Creches, Balwari centers Concentrate on working women's kids, street children, dropouts & non-school going children. Coaching centers for the students of privileged and SC, ST & OBC families. Proudh Siksha Kendra for the aged. Aim at implementing modern libraries. Libraries retain the traditional taste of maintaining literacy. Educate the children, the youth and the aged. To Spread literacy libraries running in the remote areas of Jharkhand, Uttarakand, Bihar & Delhi. Vocational training as Computer & Basic Electrical courses for low income group of the society and women from weaker sections. Help the low income group to have better access with the new accounting methods with new programs. Modern information media via internet. Efforts to run Vocational training centers in remote areas.

Capacity Building Approach A Mass Appreciation

In the drive of human empowerment the capacity building is the main requirement of the current scenario. Enhancing capacity in various stream is the main target of the organisation so that every Indian can dare the challenge with the global competitions. Today India has become the main hub for all out sourcing opportunities so the people should become capable to take the responsibility with assuring the qualitative output. We in Tamoha accepted the challenge for the over all development of our society with the support of the various authorities giving their service in the sector. We are very

Social Responsibility

is the over all job of the Organisation, is also reflective of its social conscience and commitments to the community and society at large within which it operates. It is no more viewed as a liability on resources. We have increasingly realized that it is an investment with multiple benefits for the nation. Various empirical research & findings are clearly pointing to a strong positive correlations between the social responsibility & development of the community.

Achievements

Jharkhand

The most back word state with the unlimited stock of natural resources is very poor in development of common community needs is the new state in the India is eager for its over all development. Tamoha with the support of community donors & Govt. authorities is involve in the upliftment of marginalised people residing in the remote areas/villages of the state. Around 2000 families has been beneficiated with the efforts of Tamoha in SHG Movement & other livelihood enhancement activities like vocational/basic education, health support for women, child & old aged person.

Delhi

As the India is becoming the hub of outsourcing the big scope of opportunities is going to generate in the various technical field. Govt authorities are also giving priorities to the growth of maximum technically equipped human resource so that the qualitative output can be given in all services. The TOT for SC/ST women, training for food preservation & preparation of nutritious foods, regular vocational classes for Computer/Basic Electrical/Spoken English/Mobile Repairing/Cutting, Sticking & Beautician Training were conducted by the organisation to fulfill the requirement. Organisation is the member of comity formed by Pusa Polytechnic. It also got awards & certificates for the best efforts in community development. More than 500 work force has been created with the vocational training efforts & also got placement in various Private & Govt. Organisation & always making their sympathy to Tamoha for their good carrier & also assuring their best support for the welfare programs run by us.

Bihar

Bihar the poorest state of the nation is most rich state with the intellectualize settled in the various part of country because of the limited scope of earnings in the state. Tamoha's first priority to aware the people about the benefit of education, their rights & duties. So that the sustainable development of the income generation opportunities can be created. The flood & drouhgt is the great enemy of the development in all the areas of Bihar. Organigation is preparing the disaster relief practices for the minimum loss in the worst situation & also conducting training camps for the precaution initiatives taken for the same. With the efforts of Tamoha the difference between cast & religion has been reduced people are devoting their most of time & energy for the social development. More then 5000 residents of the Shiohar, East Chmparan, Madhbani, Darbhanga, Saharsa & Sitamadhi Disriacts has been empowered with the initiative taken by Tamoha.

Uttarakhand

Life of the people residing in the valleys of so called Devbhumi of the nation Uttarakhand is very daring. They are always surviving with the common amenities the proper means of reaching to their home is not accepted their own feet in the most of the areas in the hill top & remote villages. The farming the basic source of living is very typical in the hilly areas of the state. The economy is completely depend upon the tourist activities in the religious places. The residents are not professional in hospitality because of illiteracy & unawareness. They are not using the advance technic of farming & also not getting the proper benefit of the Serbs & herbs with various natural resources in the forest areas every where in the state. Tamoha is approaching with it's all resources to aware them with the opportunities available & to train
